

Welcome Home

Welcome Home

Indonesia
April 26-May 24

This is an invitation for the Rainbow Family of Living Light to gather in open celebration of life.

Location:
Pantai Ngalur, Jengglunharjo,
Tulungagung, Jawa, Indonesia
GPS: -8.296781, 111.915099

You'll either arrive in Denpasar, Jakarta, Surabaya or Jogjakarta. From any of these you'll find buses and trains that will take you to Tulungagung.

The Australian continent is colliding with mainland Asia, where the continental plates meet is rising a chain of islands that we call South East Asia. Over the next few million years these islands will become the largest mountain range in the world. Indonesia has 11,000 of these islands that will soon be mountain peaks. It is estimated that the region has as many new life species emerging as there are species becoming extinct around the world. This rising energy is bringing new life into our world! In the moon cycle of May travellers, healers, teachers, artisans, musicians, people from across the globe, will gather to join hands around the sacred fire to rise up and bring forth new life into this world.

Getting from Tulungagung to Pantai Ngalur isn't straight forward and may require a combination of bus, car, motorbike, hitch-hiking and walking. These are the towns and regions that you'll pass through on the way: **Campur Darat**, **Gedangan**, **Tanggung Gunung** then **Jengglunharjo**.

Go to the southern most part of **Jengglunharjo** and continue walking 5km after the road turns bad. Look for this wooden gate and follow the path!

World Rainbow 2017 Gathering

MORE INFORMATION

It's the end of wet season so expect some rain and come prepared with your wet weather gear.

Indonesia is a country with largely conservative values and strict law enforcement. Even though you will generally find the locals to be very kind please respect the local cultures, traditions and laws, particularly regarding clothing, behaviour and drugs (prescription or illicit). The majority religion is Islam and coincidentally coinciding with the last day of this gathering the Muslim Indonesians will be beginning their Ramadan celebration, Please be mindful and respectful of this while transiting through the country after the gathering.

We will be living from the fire, we will not have any electricity. It will also be wet so it would be very much advisable to leave electronic equipment at home or at least switched off and packed away safely. We LOVE nature so much that we aim to leave the environment as close as possible to it's original state, this means we actually enjoy to take our rubbish back with us and we care for the nature by mindfully constructing our camps, carefully selecting firewood and when we feel the need to clean we make sure to only use natural and biodegradable soaps and detergents. We also love dogs and pets but for the sake of the local wildlife please leave pets at home.

WHAT TO BRING:

- bowl, cup and spoon.
- two water bottles (one for drinking, one for toilet).
- sleeping arrangements.
- water proof shelters, tent, tarpaulin
- rope, bucket, water jug.
